01

THE COST YOU DON'T SEE ON ANY INVOICE

It never appears as a line item,
yet it affects your revenue
every single month

02

**EVERY BUSINESS LOSES
CUSTOMERS. MOST NEVER
NOTICE.**

No alarm goes off. It just
shows up later as slower
growth you can't quite
explain

03

**THE REAL COST ISN'T THE
LOST SALE. IT'S THE
COMPOUNDING ONE.**

Every customer who stops
coming back takes every
future purchase, referral,
and dollar with them

04

MEANWHILE ACQUISITION COSTS KEEP RISING

Ads cost more every year, while
the customers you already won
get less and less attention

05

A new customer has to be convinced from zero. An existing one just has to be remembered

06

THE BUSINESSES THAT GROW FASTEST PROTECT WHAT THEY ALREADY HAVE

Retention isn't a nice-to-have. It's
the foundation acquisition stands
on

07
